

Руководство по обновлению драйвера веб-версии спектрометра

IT | 2026.02.27

01

**Скачайте и установите
последнюю версию плагина**

02

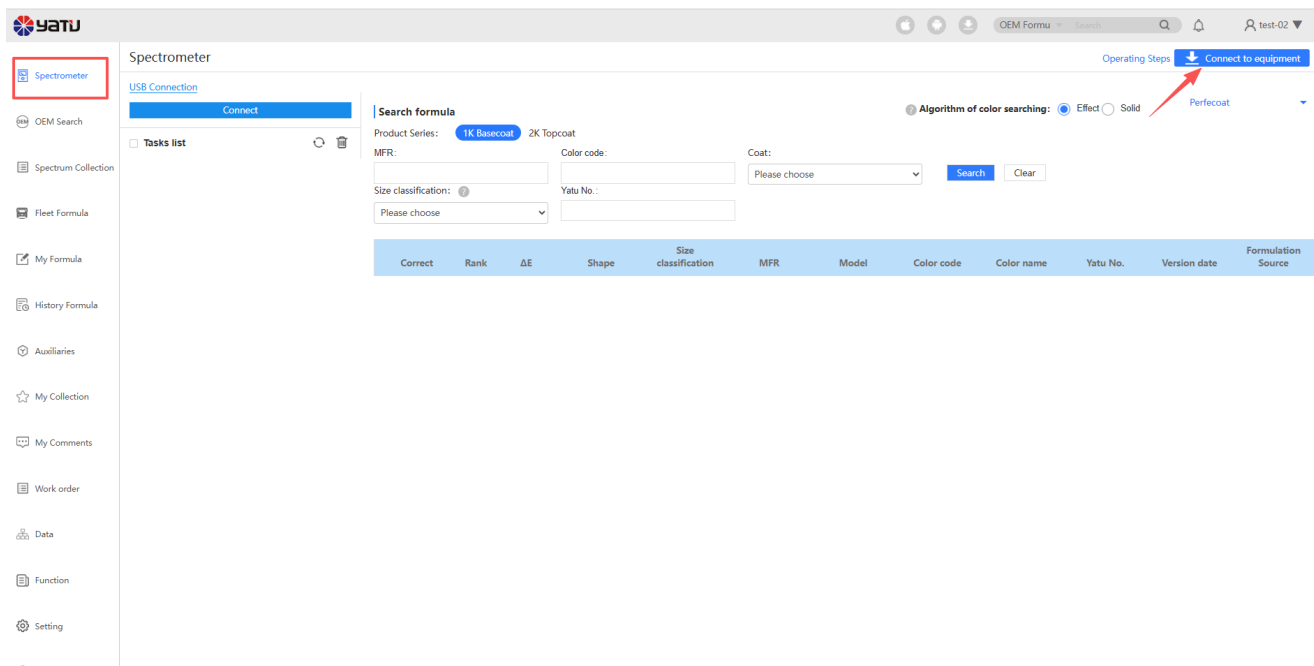

Очистить кэш браузера

03

**Проверьте, исправно ли
работает USB-интерфейс**

Скачайте и установите последнюю версию плагина

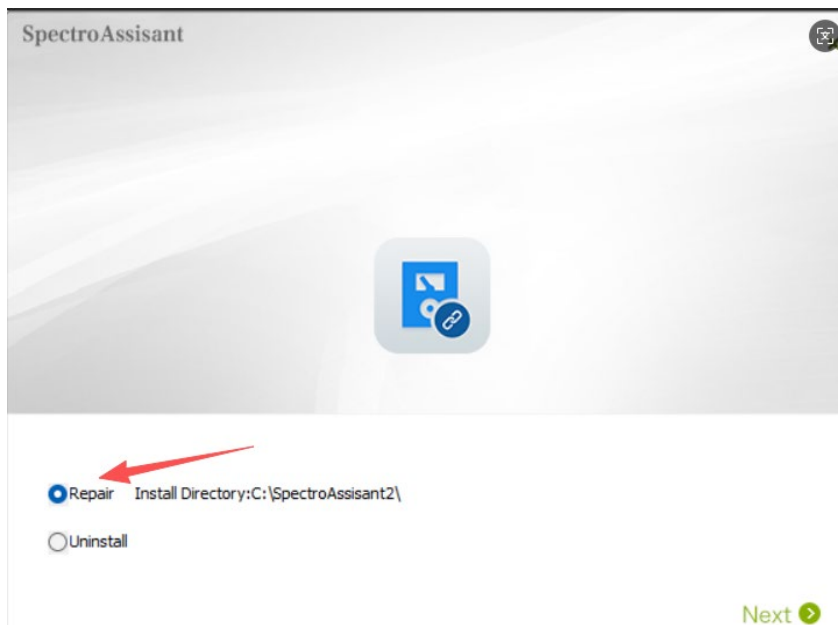

шаг 1. Загрузите последнюю версию плагина драйвера для веб-версии.

The screenshot shows the YATU Spectrometer software interface. On the left is a sidebar with navigation options: Spectrometer (highlighted with a red box), OEM Search, Spectrum Collection, Fleet Formula, My Formula, History Formula, Auxiliaries, My Collection, My Comments, Work order, Data, Function, and Setting. The main area is titled 'Spectrometer' and contains a 'USB Connection' section with a 'Connect' button. Below this is a 'Tasks list' section. To the right is a 'Search formula' section with fields for 'Product Series' (set to '1K Basecoat'), 'MFR', 'Color code', 'Coat', 'Size classification', and 'Yatu No.'. There are 'Search' and 'Clear' buttons. At the top right, there is a 'Connect to equipment' button with a red arrow pointing to it. The bottom of the interface shows a table with columns: Correct, Rank, ΔE, Shape, Size classification, MFR, Model, Color code, Color name, Yatu No., Version date, and Formulation Source.

01 Скачайте и установите последнюю версию плагина

шаг 2. Выберите вариант восстановления, нажмите кнопку «Далее» и переустановите плагин, как показано на схеме ниже.

01 Скачайте и установите последнюю версию плагина

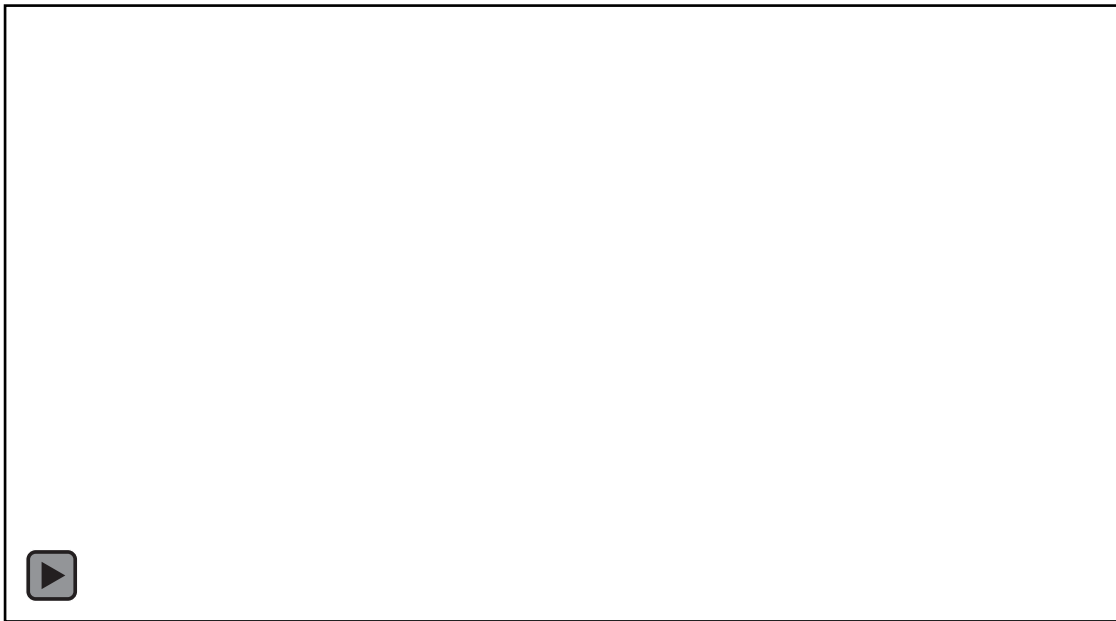

шаг 3 (необязательно): после установки, если вы используете Windows 7, перейдите по ссылке ниже, загрузите и установите пакет “.net framework 4.6.1” , затем закройте и снова откройте программное обеспечение драйвера спектрометра, чтобы обеспечить правильную работу.

Ссылка для загрузки :

[Download Microsoft .NET Framework 4.6.1 \(Offline Installer\) for Windows 7 SP1, Windows 8, Windows 8.1, Windows 10, Windows Server 2008 R2 SP1, Windows Server 2012 and Windows Server 2012 R2 from Official Microsoft Download Center](#)

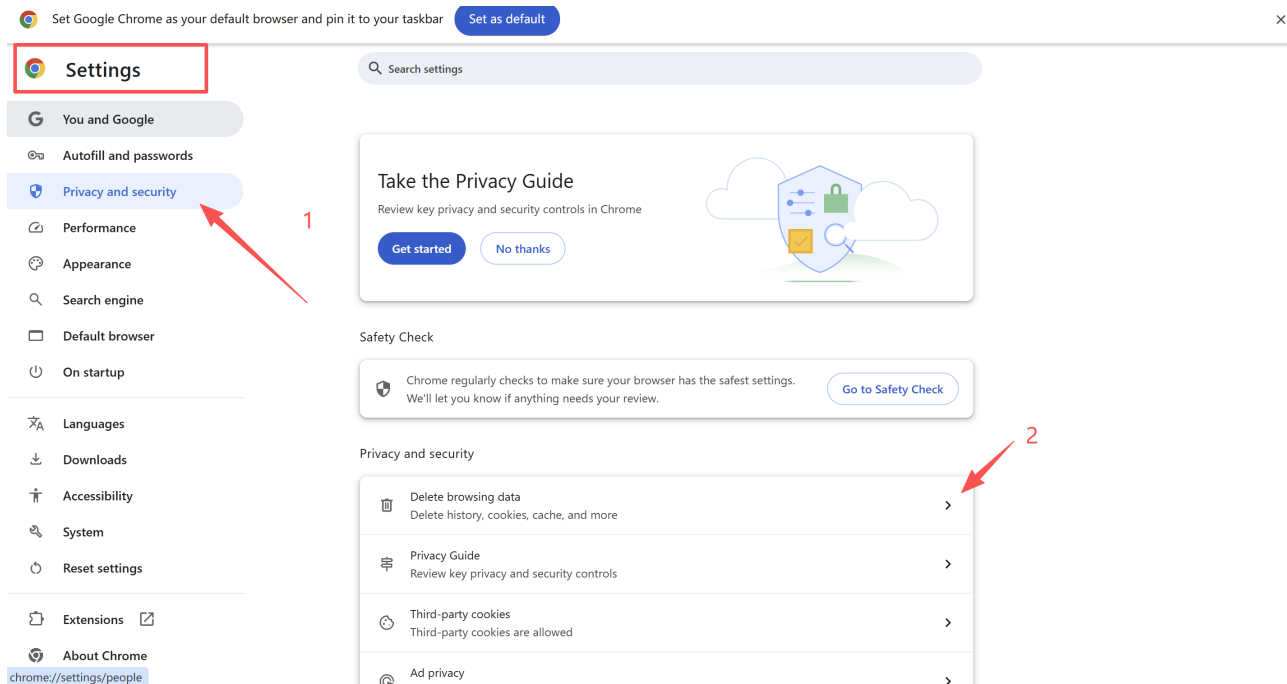

01 Скачайте и установите последнюю версию плагина

02 Очистить кэш браузера

1. браузер chrome

The screenshot shows the Google Chrome Settings interface. At the top, there is a notification bar that says "Set Google Chrome as your default browser and pin it to your taskbar" with a "Set as default" button. Below this, the "Settings" title is highlighted with a red box. The left sidebar contains various settings categories: "You and Google", "Autofill and passwords", "Privacy and security" (highlighted with a red arrow and the number 1), "Performance", "Appearance", "Search engine", "Default browser", "On startup", "Languages", "Downloads", "Accessibility", "System", "Reset settings", "Extensions", and "About Chrome". The main content area displays the "Take the Privacy Guide" section with a "Get started" button and a "No thanks" button. Below this is the "Safety Check" section with a "Go to Safety Check" button. The "Privacy and security" section is expanded, showing a list of options: "Delete browsing data" (with a trash icon), "Privacy Guide" (with a shield icon), "Third-party cookies" (with a clock icon), and "Ad privacy" (with a shield icon). A red arrow and the number 2 point to the right arrow of the "Delete browsing data" option.

2. Браузер Edge

The screenshot displays the Microsoft Edge settings interface. On the left, the 'Settings' menu is visible, with 'Privacy, search, and services' highlighted by a red box and a red arrow labeled '1'. The main panel on the right is titled 'Privacy, search, and services' and contains several options. A red arrow labeled '2' points to the 'Clear browsing data' option, which is highlighted in grey. Below this option, a description reads: 'Clear history, passwords, cookies, and more from this profile'.
